Habanos Añejados

Habanos s.a. introduces for the first time Habanos Añejados (Aged Habanos) Habanos already rolled, aged in Cuba for 5 years or more, in perfect conditions of preservation, which has enabled them to gain shades and complexity without losing their initial organoleptic characteristics. Through the aging process the cigars have become rounder and mellower to the palate, getting touches of wood taste thanks to the years of rest with the cedar protecting it.
