AÑEJADOS

During this new launching two new products are presented: **Partagás Coronas Gordas Añejados** and **Hoyo de Monterrey Hermosos No. 4 Añejados**. In both cases, the two new references are not present in the standard portfolio of both brands, but are launched to the market as a unique Edición Especial in limited quantities and for one time only. In both cases, these are Habanos that have undergone an aging process between 5 and 8 years.

The Habanos Añejados are commercialized in their original boxes, which stayed as they are without any label during the aging process and only have been dressed with the corresponding labellings of each brand for their launching to the market. The presentation of these two launchings is carried out in a regular labelled box, the ring and the external stick have been added with the legend “Añejados”, besides the vitolina to explain the concept.

Through the aging process, the cigar has developed, becoming rounder and mellower to the palate with touches of delicate and sweetish taste and, above all, obtaining shades of woody taste because of being placed for all those years near the cedar from which the boxes were made.

At the bottom of each box one can check the date of the original rolling of the Habanos. An additional stamp with the legend “Revisado” (checked) has been added, because 100% of the boxes have been opened and all the Habanos have been individually checked.
